EDUCATION

Gulzar Group of Institutes   Ludhiana, Punjab
Bachelor of Technology in Computer Science and Engineering (AI & ML) | CGPA: 7.5   *August 2022 – July 2026*

INTERNSHIP

Codveda Technologies   February 2025 – March 2025
Frontend Development Intern

- Developed a responsive landing page using HTML, CSS, and JavaScript, implementing CSS Flexbox/Grid, smooth animations, and mobile-first responsiveness to ensure an adaptive user experience across devices.
- Integrated a REST API using Fetch/Axios to dynamically display data, implementing search and filter functionality while optimizing performance with debounced search queries and error handling.

Coding Samurai   Februray 2025 - March 2025
Frontend Development Intern

- Created a personal portfolio website utilizing HTML, CSS, and JavaScript, showcasing sections such as About Me, Projects, and Contact. The site features a responsive design, smooth animations, and interactive elements to enhance user experience and engagement.
- Built an Interactive To-Do List Application using JavaScript and DOM manipulation, allowing users to add, edit, delete, and mark tasks as complete, while integrating event handling and local storage for better usability.
- Created a Basic Blog Application using Node.js, Express, and MongoDB, enabling users to create, view, and manage blog posts, implementing CRUD operations, backend server setup, and database connectivity for seamless content management.

Bharat Intern   March 2024 – April 2024
Web Development Intern

- Completed a virtual internship as a Web Developer Intern, enhancing frontend skills by building responsive UI projects using HTML, CSS, and JavaScript.
- Designed a Netflix homepage clone with pixel-perfect styling, applying layout principles and modern CSS techniques for a clean, responsive user interface.

PROJECTS

Wanderlust – MERN Travel Platform | *MERN Stack*   April 2025 – Present

- Built a full-stack travel and listing platform using the MERN stack (MongoDB, Express, React, Node.js) for dynamic content management and real-time updates.
- Implemented secure user authentication with JWT and developed RESTful APIs to handle CRUD operations for listings, images, and reviews.
- Integrated Google Maps API to enable location-based services and enhance user interaction with travel destinations.

Chat Management System | *Node.js, Express, MongoDB, EJS*   March 2025 – March 2025

- Built a chat management system using Node.js, Express, MongoDB, and EJS to perform full CRUD operations with RESTful APIs.
- Implemented method-override to support PUT and DELETE via forms, and used MongoDB for dynamic data storage and retrieval.
- Designed server-side rendered UI using EJS templates for real-time interaction and seamless user experience.

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, HTML, CSS, SQL
Frontend Technologies: HTML, CSS, JavaScript, React.js, Bootstrap, EJS
Backend Technologies: Node.js, Express.js, RESTful APIs, MySQL
Database: MongoDB, SQL, Mongoose
Version Control: Git, GitHub, Git Bash
Developer Tools: VS Code, Terminal
Soft Skills & Other Tools: Communication, Problem Solving, Client Relationship Management
